# Get into the Gaming Oasis

Welcome to a place where you can escape reality.

A place where you can immerse yourself in the most enjoyable experiences that stimulate all your senses.

Day or night. With friends or by yourself. This is your destination to truly let go, be free and make dreams come true.

Feel the adrenaline boost. Let your imagination run wild. Laugh with all your heart. See the world with new eyes.

Get into the gaming oasis.

At GENDA GiGO Entertainment, we are powered by what people love, and we spark fun and inspire excitement around the world.

GENDA GiGO Entertainment Inc. began when we acquired amusement arcades from the SEGA SAMMY GROUP in December 2020, and we have continued to expand our locations since then. Alongside colleagues who share a love of games and characters, we are fully committed to creating the coolest and most stylish facilities possible for customers who share these passions.

Game arcades exist worldwide, but we believe that Japanese “game centers” represent a distinct cultural phenomenon. Japanese game centers have shaped the market by continuously evolving with content that reflects each era. Thanks to Japan’s remarkable creativity, this has developed into a culture that can be shared globally.

As technology advances, the world becomes more convenient, and essential tasks become increasingly efficient. Meanwhile, what people truly love—even if seemingly irrational—gains more value from physical connections and experiences that evoke emotional responses and engage all five senses. We seek real-world entertainment and, as a gaming pioneer, continue to create passionate experiences that stimulate the five senses.

GiGO locations, together with customers who love gaming and team members who share that same passion, are designed to spread Japanese game center culture around the globe.

In the near future, GiGO signs will be displayed in notable locations worldwide, and together with our customers, partners, and team members, we will pioneer the domain of real-world entertainment and become a cherished global brand.
